World AIDS Day Events at EFOFAT

Ambassador Whitehead held a speech at the World AIDS Day closing ceremonies at the military base EFOFAT (École de Formation des Officiers des Forces Armées Togolaises) in Kara earlier this month. The [DHAPP](#)-funded events featured sketches, speeches, volleyball matches and interactive AMACACH-led Q & A sessions, all aimed at increasing HIV/AIDS awareness. This year's nationwide objective aims to combat HIV infection among younger people and nearly 800 individuals were screened over the course of 4 days.

Gblenkomégan Latrines Inaugurated

The unveiling of the school latrines in Gblenkomégan was witnessed by a large number of community members, school officials, religious leaders and local government representatives. Prior to his congratulatory speech, Ambassador Whitehead was presented with a boubou which he proudly donned for the ceremony. The project, financed by the Ambassador's Special Self-Help Fund, improves the sanitary conditions at the school, which will promote good hygiene and greatly reduce the spread of diseases such as cholera and dysentery.
